

Decision 06-02-021 February 16, 2006

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Enes Dedic DBA : Airport City Shuttle, for authority to operate as a shuttle service on call, passenger stage corporation between points in Bay Area Cities and Bay Area Airports and to establish a zone of rate freedom.

Application 04-12-020
(Filed December 20, 2004)

O P I N I O N

Summary

This decision grants the application of Enes Dedic (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF) pursuant to Pub. Util. Code § 454.2.

Discussion

The application, as amended by letters dated November 22, 2005, and January 13, 2006, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, San Francisco, San Mateo, and Santa Clara Counties, on the one hand, and San Francisco (SFO), Oakland (OAK), and San Jose (SJC) International Airports, on the other hand. In support of the need for this service, Applicant states generally that the availability of transportation services is vital to the successful functioning of today's society. For more than a year he has served the public as a charter-party carrier (TCP 18262-P). Applicant advises that he has established many regular

customers in his charter party operation, and he would like to be able to offer these customers PSC service. His background and experience also includes operating a transportation service in his native country for five years.

Service will be provided initially with one 7-passenger van. Applicant indicates that he has the financial ability to acquire additional units as required to meet the public's transportation needs. Attached to the application as Exhibit D is Applicant's unaudited balance sheet that discloses assets of \$118,000, liabilities of \$12,000, and net worth of \$106,000.

The proposed fares, as set forth in Applicant's letter of November 22, 2005, range between \$29 (Mountain View - SJC) and \$99 (Livermore - SFO). Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares. He will compete with other PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on December 28, 2004. Applicant requests a waiver from the provisions of Rule 21 of the Commission's Rules of Practice and Procedure which require service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant served a notice to the affected airports and the public transit operators in the service area. Applicant states that all parties that have an interest in Commission proceedings subscribe to or have access to the Commission's Daily Calendar. We shall exercise the discretion accorded to us by Rule 87 and grant the waiver requested by Applicant because he will be providing on-call service, not

scheduled service, and service on all cities and counties in the service territory would be burdensome.

In Resolution ALJ 176-3145 dated January 13, 2005, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3145.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Richard Clark is the assigned Examiner in this proceeding.

Findings of Fact

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, San Francisco, San Mateo, and Santa Clara Counties, on the one hand, and SFO, SJC, and OAK, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares set forth in his letter of November 22, 2005.
4. Applicant will compete with PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his operations. The ZORF is fair and reasonable.
5. Applicant requests a waiver of the notice requirements of Rule 21 of the Rules of Practice and Procedure as he has served the affected airports and the public transit operators in the service area.

6. No protest to the application has been filed.
7. A public hearing is not necessary.
8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application, as amended, should be granted.
2. The request to waive the notice requirements of Rule 21 should be granted.
3. The request for a ZORF should be granted.
4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.
5. Since the matter is uncontested, the decision should be effective on the date it is signed.
6. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
